Hendrickson  
Hayes  
Melroe  
Kenworth  
Mack  
Peterbuilt  
International

#### Industries Served

Nuclear  
General Construction  
Petro-Chemical  
Oil and Gas Exploration  
Plant Relocation  
Energy Services  
Pulp and Paper

Lampson International maintains a fleet of both self-propelled and towable platform trailers produced by several trailer manufacturers including Goldhofer, Scheuerle, Nicolas and others. These trailers are easily configured to meet the requirements of individual projects.

To enable the movement of the towable trailer modules, Lampson operates several prime movers including a matched set of Hendrickson Model 360's. Goldhofer PST/THP modules can be used as towables or when combined with power packages as stand alone trailer / transport systems that do not require additional locomotive means.

Lampson International also owns and operates a fleet of conventional heavy haul tractors and trailers to round out one of the most comprehensive heavy transport fleets available around the world.
